

Thanom Mk IV

The Aviation Management Information System

Whether your task is to identify new opportunities, develop business plans, derive reliable analyses from accurate and up-to-date data, or create presentations with trustworthy content, Thanom Mk IV can save you time and money.

Thanom Mk IV is all about aircraft and the companies that own and operate them. Thanom Mk IV is a result of the input from our many clients as to how they would prefer to work with the enormous amount of aerospace data we regularly and accurately update.

Sample screenshot of Boeing 737-330 (QC), MSN 23523.
More screenshots and a demonstration of how easy Thanom Mk IV is to operate, can be found in the demo section of our website at www.thanom.com

What can Thanom Mk IV do for you?

- Save you time and money by making the data collection process fast and efficient.
- Identify trends in the industry by analyzing the Thanom data with the easy-to-use Build a Question feature.
- Identify and contact potential customers.
- Track aircraft transactions and follow up the - new - owners/operators.
- Thanom Mk IV works on your desktop computer, and you can take it wherever you go on your laptop.

Thanom Aerospace Intelligence

- The company was founded in 1988 and has been serving the aviation industry since then.
- Is an independent and neutral organization.
- Our specialty is the collation of aerospace information and distributing it to the aviation industry.
- The Thanom computer-based system has been a leading source of aerospace information since 1988.
- Dedicated professional, experienced, and knowledgeable personnel are ready to assist you 24/7.

The Thanom Mk IV data

- Is always up-to-date, detailed, and accurate.
- More than 30,000 changes are made to the databases every month.
- Almost 145,000 commercial fixed-wing aircraft and helicopters with a MTOW of 3,000 lbs and over are included in the system.
- More than 145,000 aircraft histories comprising changes of ownership, leases, accidents, storage details, modifications, etc.
- Business jets and Soviet-era aircraft are also included.
- Total Times and Cycles for the majority of jet and turboprop aircraft (Boeing, Airbus, Saab, ATR, and Fokker).
- Aircraft age and Fleet age.
- Noise category (Stage 2, 3, or 4).
- Aircraft availability (for sale, for lease, on order, stored, etc.).
- Accidents and incidents with full details (partial loss, constructive total loss, and total loss).
- Aircraft photograph links — courtesy of airliners.net.
- More than 35,000 owners, operators, and leasing companies with complete contact information.
- 5,000 aircraft models, variants with technical specifications.
- 1,450 engine models, variants with technical specifications.
- Over 200 countries with aviation authorities and their contact details.

More information:

- For a detailed impression of the Thanom system, please visit our web site at www.thanom.com
- www.thanom.com/thanom-specs-dbfeatures describes in detail the data contents of Thanom Mk IV on a field-by-field basis.
- www.thanom.com/thanom-demo will take you on a guided tour of Thanom Mk IV with dozens of screen shots and explanations of how the Thanom system works.

The Thanom Mk IV program:

- Information is easily retrievable due to an intuitive program design.
- Program is very easy to learn and use – perfect for the busy executive.
- Comprehensive user manual is included.
- Modern and attractive user-interface.
- Seventeen pre-defined reports to answer most common questions.
- *Build a Question* feature to answer practically any question.
- Add your own notes to aircraft, owners or operators.
- Data export to comma-, tab-separated, Excel, and Word formats.
- Save your question templates for future use.
- Create customized reports.

Thanom Mk IV

can instantly generate a comprehensive fleetlist for any of the more than 30,000 owners/operators.
